SSB0101S Structural Attachment

Function – Multi-functional attachment to building structure or braced pipe clamps.

Size – One size fits braced pipe up to 8", with 1/2" bolt hole for structure.

Finish – Zinc plated. Other finishes upon request

Material – Carbon Steel

Installation – SSB0101S is the structural or transitional attachment component of a longitudinal or lateral sway bracing assembly. To install, insert the bracing pipe, or channel or angle bar into the clamp, and tighten the set bolt until set bolt head breaks off.

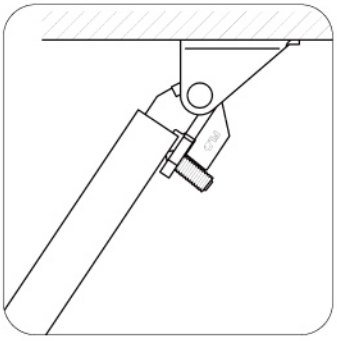

Qualification – Comply with NFPA 13 and UL listed.

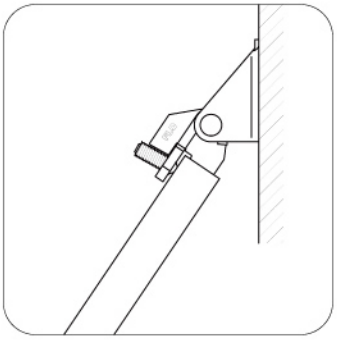

Max Load (Lateral and Longitudinal) – 2015 lbs.
